Summary

Full-stack web developer focused on creating mobile responsive designs and writing effective, maintainable code

Technical Skills

Ruby on Rails, PostgreSQL, AngularJS, jQuery, CSS, Bootstrap, HTML, Object-Relational Mapping, MVC Architecture, Mobile Responsive Design, Stripe, Devise, Pundit, Mailgun, GitHub, Heroku

Experience

Viafly | Back-end Software Engineer Intern   Fall 2017
Platform enabling online purchasing for in-store pickup

- Customized user authentication experience using Devise source code
- Fixed bugs associated with front-end accessibility of retailer logos using AWS S3
- Implemented solutions for relating stores, inventory, and users based on user location

Projects

Resume Box | Back-end Developer
- Back-end project built with Ruby on Rails, Paperclip, and AWS S3
- File storing application that allows users to upload and manage multiple versions of their resumes
- Users can email resumes to clients, friends, and potential employers with the option to add customized messages

Tassel | Back-end Developer
- Back-end project built with Ruby on Rails, Devise, and Pundit
- Web application that allows users to create, manage, and share bookmarks
- Users can email links into the app via Mailgun to add to their personal bookmark lists
- Pundit gem allows users to view and like bookmarks and admins to edit and destroy bookmarks

Much Ado | Back-end Developer
- Back-end project built with Ruby on Rails, Devise, and Heroku Scheduler
- SPA that allows users to create time-stamped, self-destructing to-do items
- Incorporates Devise gem to keep user information and to-do items secure
- Uses Heroku Scheduler to automate rake task that destroys old to-do items

Bloc Jams | Front-end Developer
- Front-end project built with AngularJS and styled with CSS and Bootstrap
- Features functional media controls plus song duration and volume seek bars

Education

Bloc | Web Development Apprenticeship | October 2016 – October 2017
Columbia University, Teachers College | MA in English Education | October 2012
Cornell University, College of Arts and Sciences | BA in English Literature | May 2010
